Rehabilitation Outcomes Summary Report

George Carter admitted to Buckeye Terrace Rehabilitation and Nursing Center on April 18, 2025 under the care of Lyle Olson. During the course of the stay, Occupational Therapy, Physical Therapy, and Speech Therapy were initiated to efficiently and effectively identify George Carter's unique needs and tailor specialized treatment plans to successfully transition to the next level of care.

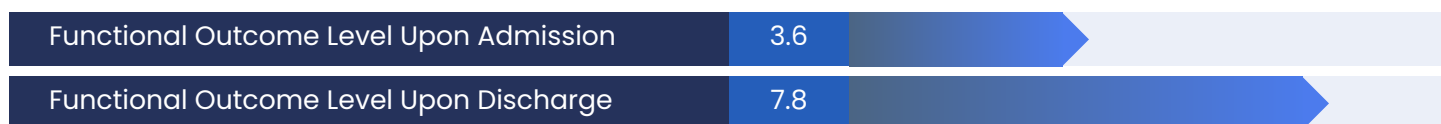

The therapy team provided skilled interventions to address the adaptation, compensation, and restoration potential of George Carter and coordinated with the interdisciplinary team to ensure appropriate clinical care areas were addressed. On May 29, 2025, George Carter successfully discharged to other.

The rehabilitation length of stay was 42 days.

Overall Composite Score Outcomes

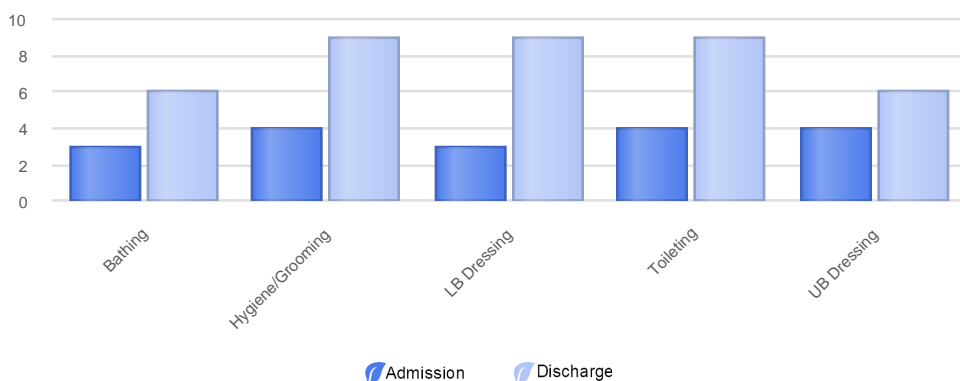

Rehabilitation outcomes are assessed on a 10-point rating scale. 10 is the most independent level of ability, and 1 is the most dependent level of ability. A score of 0 may represent an inability to perform the task. The Model 10 Composite Score represents George Carter's overall outcomes.

Model 10 Composite Score Overview

Rehabilitation Outcomes Details

Model 10^{3.0}
ADAPTATION > COMPENSATION > RESTORATION

Thank you for the opportunity to care for George Carter.
